Ghaziabad

Education

Bachelor of Technology (B.Tech.) – Computer Science

HRIT University

2025 - 2029

CERTIFICATIONS

- ISC² Certified in Cybersecurity (CC)
- Blue Team Junior Analyst (BTJA)
- Certified Cybersecurity Educator Professional (CCEP)

Skills

Cybersecurity: VAPT, Threat Hunting, Malware Analysis, Incident Response

Security Tools: Kali Linux, Wireshark, Nmap, Burp Suite, Metasploit, Splunk, Hydra

Programming: Python, Bash, C, C++

Networking: TCP/IP, DNS, HTTP/HTTPS, Socket Programming

Operating Systems: Linux, Windows

Technical Skill: Application Security, Network Security, Incident Response, Threat Intelligence, Digital Forensics

Experience

Unified Mentor Private Limited

Cyber Security Intern

January 2026 – March 2026 | Remote

- Collaborated on multiple cybersecurity projects simulating enterprise attack and defense scenarios.
- Conducted Linux privilege escalation assessments by identifying SUID binaries, weak file permissions, and cron job misconfigurations in controlled environments.
- Developed SentinelShield, an intrusion detection and web protection system featuring network traffic monitoring, anomaly detection, and real-time security alerts.
- Utilized Kali Linux, Python, Nmap, Wireshark, and networking protocols to perform vulnerability assessments and security analysis.
- Recognized as a Top Performing Intern and awarded a ₹5,000 performance-based stipend for outstanding contributions during the internship.

Cyber Shield Center

Co-Tech Lead

December 2025 – Present | Ghaziabad

- Lead a student cybersecurity club focused on defensive and offensive security learning, Capture the Flag (CTF) competitions, and campus cybersecurity awareness initiatives.
- Mentor junior members in Linux, networking fundamentals, Python, Wireshark, Kali Linux, and practical security tooling.
- Coordinate technical workshops, hands-on labs, and collaborative cybersecurity projects to strengthen members' practical skills and the club's technical capabilities.

Language

- English
- Hindi

Achievements

- Top 10 Project – Technova Hackathon 2026.
- TryHackMe Top 8%.
- Co-Tech Lead – Cyber Shield Center.
- Top Performing Intern – Unified Mentor Private Limited, awarded a ₹5,000 performance-based stipend in recognition of outstanding performance.

Projects

VULNEX – Automated Vulnerability Assessment Platform

- Led Team VORTEX during Technova Hackathon 2026.
- Developed a Python-based vulnerability assessment platform.
- Integrated Nmap-based host discovery and service detection.
- Built automated PDF security reporting.
- Designed an interactive Streamlit dashboard.
- Achieved Top 10 Project recognition.

PDF Malware Analysis Toolkit

- Extracted embedded PDF objects.
- Detected suspicious JavaScript and malicious content.
- Generated structured forensic reports.
